STUDENT LED CONFERENCES

Thursday, April 11th, 2024
3:00pm – 6:00pm

Student-Led Conferences serve many purposes. It is an opportunity to recognize that learning is a journey and to celebrate strengths and growth over time **with** your child. It is a critical part of the learning process that empowers them to be actively engaged, accept personal responsibility, and show pride in their learning by sharing samples of classroom activities and their work. Student voice continues to be an important part of their learning experience at school.

Student-Led Conferences provide another meaningful opportunity for children to develop core competencies such as effective communication with intent and purpose, critical and reflective thinking, personal awareness (as they value themselves, their ideas, and accomplishments), and a positive personal identity as they acknowledge their strengths and abilities.

We will be booking conference time slots online. Please visit:
